

KAU-VIP VIRTUAL CLASS ROOM SYSTEM

KAU's Virtual Classroom

A Real Solution for a Virtual World

KAU's Virtual Classroom takes the convenience of our popular e-learning delivery and combines it with the interactivity and immediacy of our classroom courses.

With this new, interactive delivery option, the teaching and learning happens in the same virtual classroom.

The Virtual Classroom Experience

KAU's Virtual Classroom provides you with a unique, real-time learning experience.

You'll learn in a convenient, flexible environment that incorporates the best features of our classroom courses.

Interactive Learning

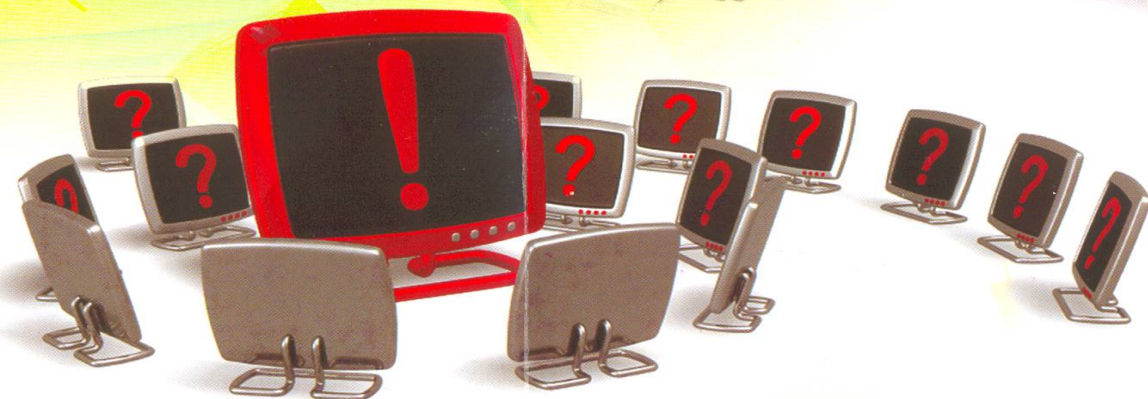

With real-time delivery in a live, e-learning format, KAU's Virtual Classroom lets you communicate with your Instructor and collaborate with other students via microphone and text-chat.

Instructors can also use instant polling techniques, such as multiple-choice questions, to help spark discussion or determine if you understand key concepts.

Also, virtual classroom allow instructors to divide students into smaller groups for exercises and case studies that promote team building and group learning.

Tools and Resources for Improved Learning

Every virtual classroom course is recorded, so you can listen to recorded sessions to review information. Plus, you can download course reference materials and tools and access pre- and post-course surveys and assessments.

KAU-VIRTUAL CLASSROOM SYSTEMS

King Abdul Aziz University

Deanship of Distance Learning

عمادة التعليم عن بعد
